Good anime tidie. Atleast Cheat free :). jesus ♥♥♥♥ing CHRST agains with thte animeen girsl and the roborsts. just ♥♥♥♥  
OF all realdy. Nobody expects the tropican inquisition!. I played 30 minutes and that was enough. while the flying physics in the  
free flight mode are enjoyable, the levels are a total mess. the first level is easy enough, but the second level is horrible. you  
need to fly through the rings but you have a limited amount of feul. the first plane doesnt ave enough feul, so i grinded the first  
level a lot to buy the second plane, that moved to fast to control! i personally dont recommend it unless you really really like free  
flight and exploration. to be fair, the animation and visuals are pretty good. (also the speed meter is really dumb. 300 kilometers  
per hour is 100 ingame metres per second).. i cant get past the first mission  
pls fix it or i will sue!!!! i am not playing!!!!
